AT THE BEACH

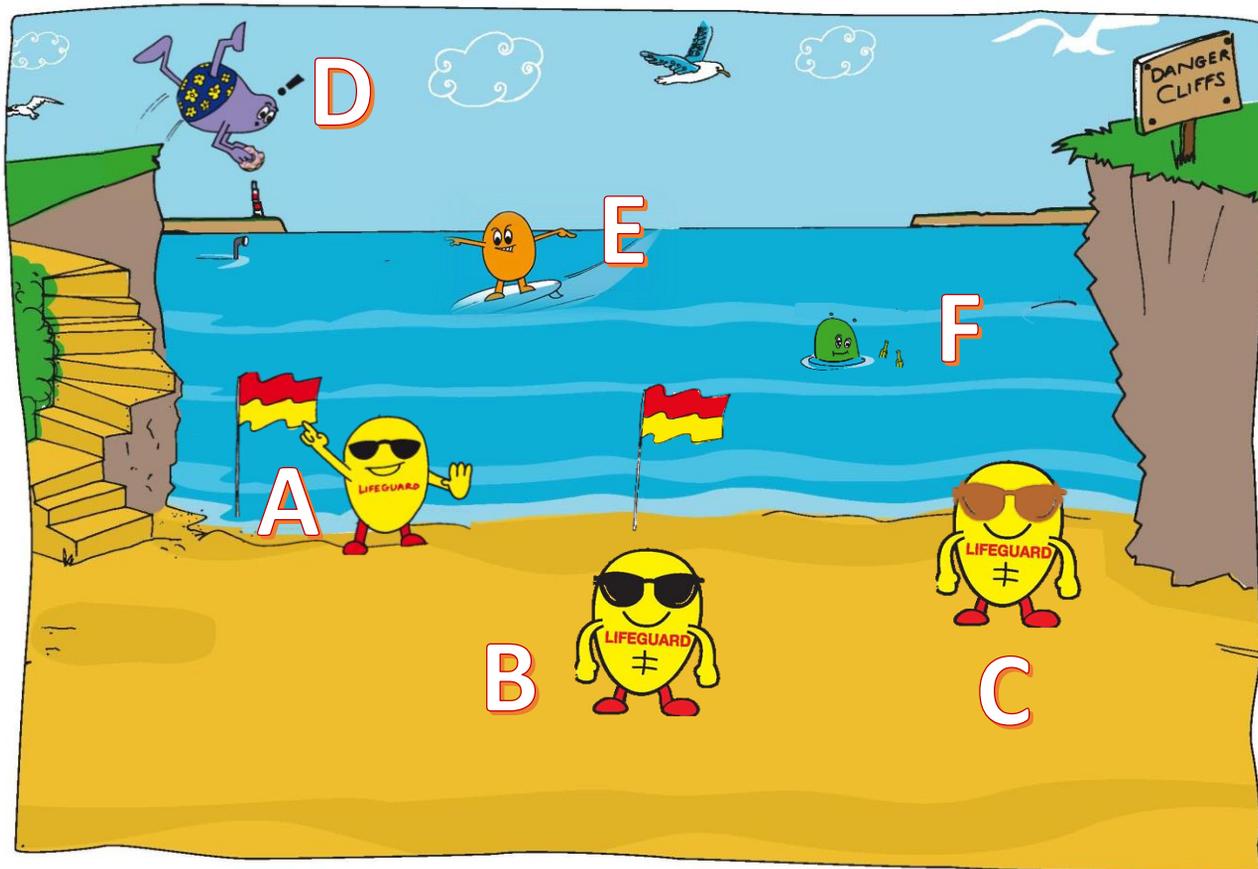

Three lifeguards are each dealing with three beach users who are not staying safe. Lifeguard A is dealing with beach user D, lifeguard B dealing with beach user E, and lifeguard C attempting to deal with beach user F.

The first name and surname of beach user E both begin with the same letter, while one the of the individuals is called Henry Gans. The lifeguard who can be seen pointing at the flag is named Brooke. The other lifeguard who is wearing brown sunglasses is called Bagshaw, and his first-name initial is the same as the first name initial of one of the beach users. Freer is one of the lifeguards; the surname of the beach user he is dealing with is not Fadikar. The beach user named Hugh is being dealt with by the lifeguard called Roy.

Can you discover the first name and surname of each of the lifeguards and beach users?
