Is it safe?

Each number in the grid indicates the number of rocks in its adjacent squares. No rock can be horizontally, vertically and not rock can appear in the same square as a number.

Can you work out where all the rocks are? We've placed one to get you started!

# **WHICH FLAG?**

Can you colour in the flags so they show the correct colours for each situation.

There is danger so no swimming is allow

Between these flags is the safest place to swim

These flags show that non-swimming activities such as surfing and wind surfing will be taking place
